MODEL A-9 DEFROSTER DUCTS AND DEFROSTER HOSES TO BE USED
 ON MODEL A-11 TO MINIMIZE OBSOLESCENCE COST.

Due to relocating of the defroster hose inlet in the defroster duct for the new model, a longer hose is required.

To minimize obsolescence, the Model A-9 defroster ducts and hoses will be used on the first Model A-11 Cabs.

The Model A-9 parts cannot be used in Model A-12, A-12W, A-12W6 & A-12W8 due to the possibility of interference when the Music Radio is installed.

LIST OF A-9 PARTS TO BE USED ON FIRST A-11 CABS.
